

## Affinity Diagram- Everytime I go to Strom it always seems to be busy, and my workouts take forever.

I want to find times where I could finish my workouts more effciently.  I hate not being able to find a locker at the gym	Id love an app to show me when the gym isn't busy  Sometimes I just leave early when the gym is too full.	Someones I dont even go to the gym because I already know my workout is going to suck.	I want to avoid socializing when it is too crowded becasue I need to finish the workout quickly.  I try to go late at night but it still seems to be crowded.	I prefer a quiet vibe that is chill while at the gym.
<b>Building an app could cost money</b>  I feel more comfotable working out in a less crowded gym.	<b>It makes me mad when I go to the strom and it is busy.</b>  If I knew the gym was less busy id be more motivated to go	Going to strom when it is really busy feels like a waste of time	I wish I knew the best time to go to get a time effieicent workout  I wish the gym shared live data about how busy it is	The gym is always packed after 5 so I don't know a good time to go.  I like to plan my workouts around my schedule, so knowing when it is less busy would be very beneficial.
Knowing the real time gym traffic would make it more convient to workout		I wish I could check the amount of people who are at the strom like how I check the weather on my phone.
